Homework: Weed Management

Answer the following questions:

1. A client comes in who wants to get rid of a weed in her lawn. What questions would you ask to determine how to help her?

2. A client comes in to your office in late July having just learned that the Dame’s Rocket on his property is a noxious weed. He proposed tilling under the whole patch. What advice would you give him?

3. Your neighbor tells you about how she got a great tip on using vinegar to kill her Canada thistle. What do you tell her about its’ use?

4. A client has a patch of cheat grass invading the “hell strip” in front of the house. From a PHC perspective, list options for management.
