

FORESTRY WEBINAR SERIES - Free!

A webinar is an online seminar that can be viewed via any computer with internet access. Sessions are recorded for future reference.

Windbreak Design and Maintenance in Colorado

March 1, 2012 from 12:00 to 1:00pm MT

Participants will learn how to plan and plant a proper windbreak, including site selection, soil considerations and species selection. If you already have a windbreak in place, learn about proper care, maintenance, and wildlife protection. Planting a windbreak on your property can provide numerous benefits including energy savings and habitat for wildlife. Presented by Megan Lowery, Conservation and Education Tech. for West Greeley Conservation District. To register go to https://docs.google.com/spreadsheet/viewform?hl=en_US&formkey=dDRPN2JkVEISd1JJY2drQmFvLVBMWVE6MQ#gid=0

Proper Tree Care Practices for Small Acreage Landowners

March 7, 2012 from 12:00 to 1:00 pm MT

Join Colorado State University Extension for a 1-hour webinar to discuss suitable plant selection and planting techniques, winter and summer watering, how to make proper pruning cuts, and when and how to apply fertilizers. Presented by Vince Urbina, Assistant Staff Forester, Colorado State Forest Service. To register go to https://docs.google.com/spreadsheet/viewform?hl=en_US&formkey=dFFPbTB6QXppbk9MS3M4YkNlbnZwM1E6MQ#gid=0

Major Forest Health Concerns for Small Acreage Landowners

March 14, 2012 from 12:00 to 1:00 pm MT

Sky Stephens, Forest Entomologist with the Colorado State Forest Service will provide the most up to date information on what is affecting your forest lands and what to look out for related to insects, disease, and invasive forest plants including some great tips on what you can do to mitigate these impacts. To register go to https://docs.google.com/spreadsheet/viewform?hl=en_US&formkey=dDIwRlhYSkVPTk1oa1JpVGd2YjdzMUE6MQ#gid=0

Best Management Practices (BMPs) on Small Acreages

April 11, 2012 from 12:00 to 1:00pm MT

In this webinar, you will learn about how to implement specific management techniques to ensure protection of natural resources. This topic will touch on preserving water quality, soil health, and how to accomplish resource protection. Presented by Greg Sundstrom and Rich Edwards with the CSFS. To register go to https://docs.google.com/spreadsheet/viewform?hl=en_US&formkey=dDM5UkNJQkpKbXkxc0lyMWJFbWpRU3c6MQ#gid=0

Wildlife Habitat Improvements for Forests in Colorado

April 18, 2012 from 12:00 to 1:00 pm MT

Learn how to manage your woodland for habitat improvement of certain wildlife species. The webinar will also discuss what to do in case of encroachment and how to fence with wildlife in mind. Riparian area live-stock impacts and in-stream habitats will also be discussed by Russell Knight, Biologist from the NRCS. To register go to https://docs.google.com/spreadsheet/viewform?hl=en_US&formkey=dGw3RUQ5YUdZX19ma0VSZmVYcGV3cXc6MQ#gid=0
