V (A). Planned Program (Summary)

Program # 2

1. Name of the Planned Program

Family Economic Stability

2. Brief summary about Planned Program

Extension will continue an active work teams in the area of Family Economic Stability - family financial management.

Two Work Teams have been suspended due to focused programming by FCS professionals on campus and in county offices:  • Healthy Homes - indoor air quality  • Growing Strong Colorado Families

3. Program existence : Intermediate (One to five years)

4. Program duration : Medium Term (One to five years)

5. Expending formula funds or state-matching funds : Yes

6. Expending other than formula funds or state-matching funds : Yes

V (B). Program Knowledge Area(s)

1. Program Knowledge Areas and Percentage

V(C). Planned Program (Situation and Scope)

1. Situation and priorities

• Financial stability of families is the area of focus for non-nutrition FCS programming.
• Colorado families’ financial instability includes increasing rates of bankruptcy, economic crises, loss of jobs, etc.
• Continued high levels of on-farm accidents exist, resulting in serious injury and disability. AgrAbility programming continues.

2. Scope of the Program
In-State Extension
Multistate Extension

V (D). Planned Program (Assumptions and Goals)

1. Assumptions made for the Program

Assumptions for this program include:

• If given the opportunity to learn financial management skills, individuals and families will choose to practice those skills, resulting in increased financial stability.

• Farm families who have access to information on coping with disabilities within their families will eagerly put new knowledge to work.

2. Ultimate goal(s) of this Program

Family Economic Stability programs will affect positive change in participants' financial knowledge and skills, contributing to their ability to avoid bankruptcy, economic crisis, loss of jobs, and other money-related difficulties. AgrAbility programs will help farmers avoid accidents and reduce incidence of serious injury and disability.

V (E). Planned Program (Inputs)

1. Estimated Number of professional FTE/SYs to be budgeted for this Program

<table>

V (F). Planned Program (Activity)

1. Activity for the Program

Educational activities include:

• Adoption of curriculum, training for agents and other service providers, educational programs on financial management for individuals and families.

2. Type(s) of methods to be used to reach direct and indirect contacts

<table>
<thead>
<tr>
<th>Extension</th>
<th>Direct Methods</th>
<th>Indirect Methods</th>
</tr>
</thead>
</table>

3. Description of targeted audience

Colorado families, including diverse and difficult-to-reach populations.

V (G). Planned Program (Outputs)

1. Standard output measures

Target for the number of persons (contacts) to be reached through direct and indirect contact

<table>
<thead>
<tr>
<th>Year</th>
<th>Direct Contact Adults</th>
<th>Indirect Contacts Adults</th>
<th>Direct Contacts Youth</th>

V (H). State Defined Outputs

1. Output Target

- AgrAbility workshops held.

- Trainings held in family financial management.

- Number of newsletters/publications distributed.

- Grant dollars (external) generated to support this program.

- Number of individuals trained in AgrAbility issues (dealing with disabilities on the farm/ranch.)

- Number of individuals trained in family financial management, financial management in later life, teen financial management, and other family finance programs.

- Number of volunteers supporting this program
  2011: 30  2012: 30  2013: 30  2014: 30  2015: 30

- Numbers of partnering agencies supporting this program
V (I). State Defined Outcome

<table>

- 802 - Human Development and Family Well-Being

4. Associated Institute Type(s)
- 1862 Extension

V (J). Planned Program (External Factors)
1. External Factors which may affect Outcomes
Economy

Appropriations changes

Public Policy changes

Competing Public priorities

Competing Programmatic Challenges

Populations changes (immigration, new cultural groupings, etc.)

Description

Individuals’ ability to attend fee-for-service programs may be impacted by economic downturns. Extension’s ability to provide programming and scholarships for these programs may be affected if appropriations continue to decrease and staff is lost. Absence of a Family Resource Specialist limits agents’ access to research-based information they can share with Coloradans. A recent search for this position was unsuccessful; however, the position has been advertised again and Extension looks forward to welcoming a colleague in this vital position.

V (K). Planned Program (Evaluation Studies and Data Collection)

1. Evaluation Studies Planned

- After Only (post program)
- Before-After (before and after program)
- During (during program)
- Case Study
- Comparison between locales where the program operates and sites without program intervention

Description

Regular pre-post evaluations are used. Formative evaluations are often used during programs to adjust focus and direction. Case studies are used to clearly demonstrate impact.

2. Data Collection Methods

- Sampling
- On-Site
- Case Study
- Observation
- Tests

Description

Pre-post tests. Standard survey methods.
